

Tips for Selling to: Aggregators/Grower Marketing Coops

Aggregators are agricultural businesses or cooperatives of growers that consolidate and distribute agricultural products. They typically support regional growers of diverse sizes and experience, and sell products to local or regional markets. The consolidation of multiple farms' products can help supply fresh product for distributors and other wholesale customers and is not limited by grower size.

For this market you can expect:

- Higher volume of product
- Lower prices per unit

Advantages

- In contrast with other wholesale markets, you can sell large or small quantities of product through this marketing channel.
- Your products may still retain your farm identity and may be marketed locally or regionally.
- Aggregators will often work with growers to provide on-farm technical support, harvest and pre-production planning to meet market projections.
- Aggregators often serve as the marketer and distributor, which allows the grower to focus more time on farming and may reduce the marketing and distribution costs of the individual grower.
- Aggregators and marketing co-ops can help buy packaging materials, labels and marketing materials through group purchasing, which can reduce the individual grower's materials costs.

Considerations

- You can sell a larger quantity, but expect a lower price per unit.
- Growers are required to adhere to packing grades and standards.
- Growers may be required to adhere to Good Agricultural Practices and complete a food safety plan.
- If the aggregator is a co-op, growers will likely be required to attend meetings and participate in some capacity.
- There are often annual fees associated with a grower co-op.

Tips for Selling to Aggregators/Grower Marketing Coops

- Aggregation on a local level is a fairly new concept. Look for grower recruitment meetings, or ask around to find out if one is located near you. ★ key point
- BEFORE you begin production, call the aggregators to find out what products they are looking for.
- ★ If you are starting a cooperative aggregation group, be sure you understand how the legal business structure of a cooperative works. Contact the USDA Rural Business Cooperative Service to help guide you through the process and possibly access federal funding: www.rurdev.usda.gov/rbs

Key Questions to Ask Yourself

- How will my membership with the aggregator or growers co-op align with my personal and business goals?
- Has this aggregator or co-op been successful or in business for more than a short period of time? Do they have a good reputation?
- If it's a co-op, what kind of time commitment is required? Am I willing to work with a group to help market our collective produce?
- ★ Am I prepared to adhere to quality and other standards that are set by the group?
